The Honorable Edward B. Calvo  
Acting Speaker  
Mina' Bente Nuebi Na Liheslaturan Guahan  
Twenty-Ninth Guam Legislature  
155 Hessler Street  
Hagåtña, Guam 96910

Dear Acting Speaker Calvo:

*Hafa Adai.* Pursuant to 5 GCA Chapter 4 §4107, transmitted herewith is the proposed Fiscal Year 2009 program and financial plan for the government of Guam.

The proposed Fiscal Year 2009 Executive Budget focuses the entire revenue increase potential of FY 2009 towards reducing the government's structural deficit. The longer we wait to address this government's ongoing structural imbalance, the larger the deficit growth potential, and the more severe the consequences will be to our overall economic viability. With this budget paving the way towards addressing some of these deficiencies, I continue to strongly advocate a comprehensive long-term plan to deal with this government's remaining structural issues, its huge deficit, and sizeable pension liability, as well as not being an impediment to those autonomous agencies who are able to obtain financing on their own.

I have always been a strong proponent of refinancing in order to begin to pay down this government's huge obligations, to improve our assets, and to begin creating reserves for this government. The refinancing of the 1993 bond in November 2007 and the \$115 million deficit financing bond authorization still pending is a step in the right direction. However, the funding of GPSS FY 2008 operational needs with bond proceeds from the recent refinancing simply delayed the inevitable which now obviates the need for 32% of increased revenues in FY 2009 to make up for those needs. There is an urgent need to focus more on targeted growth in the critical areas of education, health, and safety. We need an expansion of our revenue base to support the growing demands for services, to pay down the deficit, and to prepare for the boom of the next decade. Now is the time to strengthen government services in the areas that will encourage greater and more sustainable growth for decades to come.

Clearly there will be growth in our economy from the military build-up, the re-positioning of our tourism industry and other multi-million dollar investments. No doubt the next decade we will see tremendous economic activity with accelerated construction activities and development industries presence. But the government of Guam won't see the full economic benefits until years after the military has arrived.

The Fiscal Year 2009 Executive Budget reflects a growth in General Fund revenues to \$521.0 million from \$489.9 adopted in FY 2008, a decline in Special Fund sources now at \$103.9 million from \$107.1 million, as well as a reduction in Federal Matching Grants-In-Aid from \$35.2 million to \$34.4 million. Then it proposes a major realignment of General Fund and Special Fund resources to address the long standing structural and operational deficits facing this government. The combined total of \$30.9 million in projected General Fund revenue increases and some \$7.9 million in cuts from certain FY 2008 levels were only sufficient to address the structural imbalance carried forward by previous budgets.

Outlined below are items of structural deficiency addressed by this budget:

1. \$10.6 million went to agencies that have been under-budgeted over the years.
  - \$4.5 million to the Guam Fire, Corrections, and Police
  - \$1.6 million for the Special Funds shortfalls supporting these agencies
  - \$1.0 million for increased cost in retirement contributions
  - \$3.5 million for all others
2. \$15.1 million went to the Government of Guam Retirement Fund as follows:
  - \$9.5 million for increased health insurance cost
  - \$4.6 million for annual interest payments owed by GPSS and GMH per P.L. 28-38
  - \$1.0 million for increased regular COLA payments
2. \$10.0 million went to restore minimum funding requirements to GPSS (bond proceeds funded part of GPSS operational needs in FY 2008).
3. \$ 3.1 million went to health areas as follows:
  - \$1.4 million went to MIP and Medicaid (true shortfalls of these programs is up to \$10 million each year)
  - \$ .7 million to 19 GCA Court-Order Support for Children never before addressed in the budget.

The sobering reality of a budget that merely funds the structural deficit and leaves nothing for asset improvements, capital needs, deficit reduction, and creating reserves can no longer be ignored. This government can no longer sustain current operational levels and meet the growing demands of a community for the delivery of critical services. And our fiscal challenges are far more severe than just closing the structural gap which this budget proposes. We have an opportunity before us with the military expansion that requires advance preparation which our current revenue base cannot support. We have a deficit over \$500 million that exacerbates this challenge more than ever and we have a pension plan on the verge of collapse if major reform is not put in place soon.

The temporary budgetary fixes over the years have literally turned into permanent policy and has created bigger problems, such as the downgrading of our bond ratings in 2003 and the depreciation of our assets due to a lack of structural maintenance. The \$115 deficit bond financing authorized by P.L. 29-19 which remains pending will require the completion of a comprehensive deficit elimination plan to go to market and to help improve Guam's future bond

ratings. The financial market and bond insurers are not inclined to take on exposure to the government's credit with the present bond rating and a deficit this size with no solid plan of action for reduction.

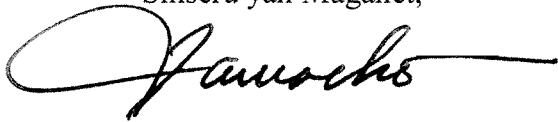

In the summer of 2007, along with the transmittal of the FY 2008 revised budget, I offered the Fiscal Recovery and Deficit Elimination Plan which presented a comprehensive approach to begin addressing our continuing structural challenges, to eliminate the deficit, and begin to create reserves by the year 2014. Recent adjustments to this deficit elimination pro-forma to reflect the FY 2008 adopted revenues, the spending plan, and the bond initiatives show that by Fiscal Year 2014, this government will still be facing a deficit well over \$400 million. This projection could conceivably increase if nothing else is done to give this government the resources it needs to meet both past and current obligations. For example, we continue to ignore the needs of our indigent programs (MIP and Medicaid) which are annually under-funded up to \$10 million. We continue to deprive our people their money in tax refunds which are now disbursed at a slower pace due to the redirection of some \$11 million annually of these refund set-asides for the (unfunded) obligations of the EITC arrearage.

With the passage of the FY 2008 budget in September 2007, I pointed to several of the challenges presented by the budget and offered the full participation of my fiscal team to begin meaningful and productive discussions toward the development of a deficit elimination plan that would be acceptable to both the Executive and Legislative branches with a serious commitment by both branches towards its implementation.

While I believe that this proposed FY2009 budget brings us a step closer to addressing our structural deficiencies, the long-term viability of this government still awaits a fulfillment of the Legislature's commitment to work with my Administration on a long-term fiscal recovery and deficit elimination plan.

It is my hope that the clarity of our structural challenges made evident in the pages of this budget will forge constructive, productive dialogue in the coming months towards addressing these and other pressing fiscal issues. As always, my Administration stands ready to participate in meaningful discussions on the budget and other issues of immediate importance.

# THE BUDGET PROCESS

---

As required under law (5 GCA §4103 & §4106), the Governor directs the preparation and administration of the Executive Budget for the government of Guam on an annual basis. The Executive Budget represents the Governor's financial proposal with recommended priorities for allocating resources. The budget process is important and necessary for the enactment of a budget and review of government operations.

The Budget Process for FY2009 occurs in four essential phases: formulation, adoption, execution, and audit.

During the **formulation phase** the economic forecast and the program and financial plans are prepared for the various departments. Economic data and statistics are utilized in developing projected revenues for the upcoming fiscal year.

Once revenues have been projected, a budget call is distributed to all the line agencies. This process starts when the Bureau of Budget & Management Research (BBMR) issues guidelines to each line agency in the preparation and development of their respective budgets.

The formulation phase culminates in the transmittal of the Program and Financial Plan (Executive Budget) with the Governor's Budget Message to the Legislature for its consideration.

The **adoption phase** is the process in which the Legislature considers the Governor's proposal and passes the overall revenue and spending plan under a General Appropriations Bill. The Bill usually

receives more detailed hearings within the auspices of the applicable legislative committees. Usually, a series of hearings will be called during which department heads and staff members give an overview of the Governor's proposed budget and are expected to provide explanations when their department's / agency's appropriations are considered. Finally, the Legislature may pass a General Appropriations Bill. The Bill is then transmitted to the Governor for approval. Other bills to include amendments during the fiscal year may be introduced for enactment into law.

The **execution phase** involves the release of funds appropriated per the General Appropriations Act. Each department prepares allotment of appropriations and may request revisions, legislative or administrative transfers, or supplemental appropriations. BBMR must approve such revisions to allotments. The Bureau also monitors and assists agencies in carrying out the approved budget in line with the established policies of the Governor.

The **audit phase** involves the evaluation of departments / agencies to identify areas in need of improving compliance procedures with applicable laws and regulations. During the audit phase, financial transactions, accounts and reports are assessed and analyzed to improve accountability, effectiveness, and efficiency in the achievement of goals and objectives. This phase is also to assure economic use of resources to enhance achievement of public services.

# REVENUE & EXPENDITURE OVERVIEW

---

# REVENUE AND EXPENDITURE OVERVIEW

The Government of Guam's operating revenues are composed of four classifications: General Fund, Special Funds, Federal Grant-in-Aid, and Semi-autonomous and Autonomous Agencies Operating Funds.

General Fund	\$520,721,797	Semi-autonomous/Auto	582,099,145
Special Funds	103,879,537	Fed. Grants in Aid	230,801,399
		Total	\$1,437,501,878

## General Fund

The General Fund is the fund into which all government revenues, not otherwise restricted by statute, are deposited and from which appropriations are made. The Government of Guam is the only taxing authority and there are no separate municipal, county, school district or improvement district taxes.

The three primary sources of General Fund revenues are income taxes, gross receipts tax (GRT), and Federal Sources. Income tax and GRT account for approximately 89% of total General Fund revenues. Under the Organic Act, Guam's Income Tax Code mirrors the United States Internal Revenue Code. As a result, the income tax laws in force in the United States are applied to the residents of the Island, however, payable to the Treasury of Guam. Gross receipts taxes are levied on a broad base of goods and services, including the sale of tangible personal property and the provision of professional service. The Fiscal Year 2009 revenue forecast is reflective of

collection experience up through the month of December 2007.

The revenue tracking will be updated as actual data is received. This information will be made available as part of the upcoming budget process and dialogue between the Executive Branch and the Legislature for the Fiscal Year 2009 Budget discussions.

Federal Sources include Section 30 funds which are derived from federal withholding taxes of federal employees and from military personnel based on-island or consider Guam as their state of legal residence. In addition, immigration and naturalization fees are part of federal funds to be covered into the Treasury of Guam.

Income Tax	\$267,274,315	Business Privilege	196,131,262
Federal Funds	48,351,222	Other Taxes	1,468,543
Others	7,496,455	Total	\$ 520,721,797

## Special Revenue Funds

Special Revenue Funds are created by statute or Executive Order with an identified source of revenue or appropriation. Expenditures from such funds are restricted to purposes set by statute or as sources for debt service payment for bonds issued for constructing and improving major facilities and infrastructure. Several of the most significant Special Revenue Funds include the Tourist Attraction Fund, Guam Highway Fund, Territorial Educational Facilities Fund, Customs & Quarantine Inspections Fund, Solid Waste Management Fund.

# REVENUE AND EXPENDITURE OVERVIEW

## Federal Grants-in-Aid

Federal Grants-in-Aid are funds received by the Government for public service delivery, either for specific programs or for general purpose aid. Federal Grant funds, which may require local matching funds, are requested through various Federal agencies and are spent according to the terms and conditions approved by the respective Federal grantor agency. Major Federal grantor agencies include the United States Department of Agriculture, Education, Interior and Health and Human Services.

## Semi-autonomous and Autonomous Agencies Operating Fund

These funds are financed and operated in a manner similar to a private business enterprise where the cost of providing services to the public on a continuing basis is financed or recovered primarily through user charges. Autonomous agencies such as

the Guam Power Authority, Guam Waterworks Authority and the Guam International Airport Authority generate revenues to fund operational and capital requirements. Other agencies, such as the University of Guam and Guam Community College, require subsidies from the General Fund and other external sources to meet their operational requirements and fund certain programs like student scholarships and teacher training programs. Most autonomous agencies prepare their budgets between the months of April through June. Listed above are operational budget amounts from the autonomous and semi-autonomous agencies for FY 2008.

# ECONOMIC OUTLOOK

---

# ECONOMIC OUTLOOK

---

The Outlook for Fiscal Year 2009 is a continuation of the growth path established over the last five consecutive years as measured by gross sales receipts. The expansion in FY 2003 through FY 2005 was largely due to the recovery of tourism from the depressed levels following the events of September 11, 2001 and SARS which severely impacted tourist arrivals as well as reconstruction efforts following the 2002 Typhoon Pongsona. The impetus for the growth in Fiscal Years 2006 – 2009 is being driven primarily by increasing construction activity levels and steady visitor arrivals with increasing hotel expenditures.

The total dollar amount of the combined construction permitted by the Department of Public Works and contracted by the federal government has risen from \$159 million in FY 2004 to \$428 million in FY 2007. The 2008 National Defense Authorization Act passed by the House of Representatives and the Senate is expected to be signed into law by the President. It authorizes a total of \$290.7 million in construction expenditures for military installations on Guam – an increase of nearly \$100 million from last year. Total construction projects scheduled for commencement in 2008 exceed \$500 million. Construction industry employment growth has not kept pace with the increase in contracts in the last two years, perhaps indicating a growing backlog of projects. Continued increases in construction and possible acceleration in the growth of construction related employment and revenues are likely. The September 2007 Current Employment Report shows a 35 percent increase in construction employment in the latest one year period. This indicates increased construction activities underway.

Construction activities are primarily driven by a number of Department of Defense projects designed to strengthen Guam's defense infrastructure, as well as Government of Guam capital improvements in infrastructure and private housing projects. Limited construction in hotels, apartments, and commercial buildings is occurring due to substantial existing vacant capacity. Hotel construction is characterized by major renovation and modest expansion to upgrade facilities, some under new ownership or management, to cater to current trends and demands in the visitor industry, such as enhanced wedding and spa facilities.

While the percentage increase in construction has been dramatic, the percentage change in the total employment is less dramatic as construction represents less than 10 percent of total employment on Guam. Total employment on Guam increased a more restrained 2.7 percent over the latest one year period and average hourly earnings of private sector non-supervisory workers increased 3 percent.

The visitor sector has remained essentially static for the last several years in terms of arrivals, and no dramatic change in the trend has been forecast. The revenue picture in this sector is better, however. Hotel occupancy tax collections have risen 5.6 percent in the latest year and 32.6 percent over the latest five year period. This rise in occupancy taxes represents higher expenditures in hotels due to a combination of factors including inflation and rising prices passed on in higher room rates, stronger demand and upgraded facilities. The higher average room rates are explained, in part, by better accommodations rather than just rate increases for existing services.

The pace of economic growth is expected to remain fairly steady into FY 2009 and will to some extent be affected by the scheduling and timing of the completion of various construction projects.

In making year-to-year economic and revenue comparisons, it is important to consider extraordinary items which occurred in FY 2007 and FY 2008 which can be considered one-time events. These include:

- FY 2007 closed with extraordinary receipt of \$21 million in additional Section 30 reimbursement
- Tax Amnesty Program realized an additional \$9 million in FY 2007

# ECONOMIC OUTLOOK

---

- FY 2008 is being buoyed with the disbursement of \$18 million in bond-funded tax refunds and \$14 million in bond funded Cost of Living Allowance (COLA) payments – neither of these expansionary stimuli are anticipated for FY 2009
- Increases in fees, etc. boosted FY 2007 revenues and increased the percentage year-to-year change– continuation of the fees would not result in future year-to-year percentage increases
- FY 2008 kicked off with a boost to employment with two sizeable employers, Home Depot and Ruby Tuesday opening their doors in the first quarter

The construction growth trend of the 1990's is different than current ones in one key aspect. The development of the 1990's created construction jobs and following construction, substantial resident job creation occurred with the opening of each hotel, golf course, restaurant and the related services establishments associated with tourism. The construction projects of the 1990's were primarily the creation of business establishments and the resultant creation of permanent jobs for residents. The construction of today is primarily but not exclusively associated with improvement in capital assets, housing and upgrading of existing infrastructure and business facilities. Completion of these projects will generate a more limited number of jobs to operate the improved facilities and infrastructure. Improved infrastructure, both defense and civilian infrastructure, are important in the long-term to support economic expansion but does not generate substantial numbers of jobs immediately as do new major business openings such as hotels and retail stores. Additionally, a substantial component of the increased employment in the construction labor force is comprised of foreign workers reducing the positive impact on local employment and expenditure of income from the expansion in this industry. Therefore, large construction projects occurring in the near future will not generate the large and permanent employment and associated payroll revenue growth as in the 1990's.

Moderate economic expansion is expected to continue, but not a boom, prior to the anticipated construction in 2010 to accommodate relocation of the Marines from Okinawa. As always, there are risks associated with a sometimes volatile tourist industry and the economy in general, including fuel price escalation, health issues, typhoons and unanticipated international political, economic and security issues, which could impact the positive outlook for the years ahead.

Some of the uncertainties in the *Economic Outlook* for FY 2008 including court decisions on the Cost of Living, Earned Income Tax Credit and bond litigation in the U.S. Supreme Court have been resolved; others remain unresolved, including closure of Ordot dump and opening a new sanitary landfill as well as addressing the growing Government of Guam deficits and expectations for improved services and employee compensation adjustments. How and when these issues are addressed may have additional economic impacts as well.

15 from work.

16       **Section 16. Advance Payments for Medical Services.** In order to expedite  
17 acceptance of MIP clients by facilities in California, Hawaii or Manila for medical  
18 treatment approved by the Medically Indigent Program, the Director of Public Health and  
19 Social Services may advance payments for said medical treatment, and may establish  
20 escrow accounts for immediate and advance payment of medical treatment at those Joint  
21 Commission Accredited hospitals determined by the Director to be best able to serve  
22 Medically Indigent Program clients.

1           **Section 17.     Land Survey Revolving Fund (LSRF) Appropriation**

2   **Provision.**   Notwithstanding §60602, Chapter 60 of Title 21 GCA, the appropriation  
3   made from the Land Survey Revolving Fund to the Department of Land Management by  
4   Section 1, Part VII (D) of Chapter II of this Act may be expended for the Department of  
5   Land Management's Fiscal Year 2009 operations.

6           **Section 18.     Transfer of Employees.** Notwithstanding any other provision of  
7   law, and in recognition of personnel shortages in certain areas, *I Maga'lahaen Guåhan* is  
8   authorized to transfer employees within *or* between any department *or* agency of the  
9   government of Guam, *except* that:

10           (a)     This Section shall *not* apply to any employee of the Legislative *or* Judicial  
11   Branches of government;

12           (b)     The transfer of an employee shall *not* result in a loss of pay *or* salary;

13           (c)     *No* employee *shall* be transferred if the employee has filed a viable  
14   grievance with the Civil Service Commission for discrimination based on political  
15   affiliation, gender, *or* sexual harassment, *unless* the employee consents to said transfer;

16           (d)     No employee of an autonomous agency may be transferred to a line  
17   department *or* agency;

18           (e)     *I Maga'laha* shall transfer the funding authorized for that employee's  
19   position from the transferor agency to the transferee agency, including GMHA, DPHSS,  
20   DMHSA, unless the transfer is from a line agency to an autonomous agency; and

21           (f)     This Section *shall not* be used to transfer employees acting in good faith  
22   who report *or* expose bad business practices, illegal activities, *or* inappropriate conduct  
23   by public officials.

1           **Section 19. Moratorium on Compensation for Boards and Commissions.**

2   Notwithstanding any other provision of law, rule, or regulation, except for the Civil  
3   Service Commission, the Guam Education Policy Board, and the Consolidated  
4   Commission on Utilities, a moratorium is hereby placed on the compensation of all  
5   members of government boards and commissions for their attendance at hearings or  
6   meetings, through the end of Fiscal Year 2009.

7           **Section 20. Independent Contractors.** The Office of *I Maga'lahi*, the Office  
8   of *I Segundu Na Maga'lahren Guåhan* and the Guam State Clearinghouse may enter into  
9   agreements with independent contractors pursuant to Guam procurement laws.

10          **Section 21. Facilities Insurance Requirements.** Every department and  
11   agency of the government of Guam, as part of its appropriations for operations contained  
12   in this Act, may expend such sums as necessary for facilities insurance requirements.

13          **Section 22. Waiver of Economic Impact Statements for Proposed**  
14   **Departmental Fee Increases.** Notwithstanding any other provisions of law, subsections  
15   (d), (e), (f), (h) and (j) of Subsection 9301 of Chapter 9, Title 5, of the Guam Code  
16   Annotated are hereby waived for the Department of Revenue and Taxation, Guam Fire  
17   Department, Department of Parks and Recreation, Department of Land Management,  
18   Contractors License Board, Department of Mental Health and Substance Abuse, and the  
19   Guam Police Department in these departments' implementation of fee increases for  
20   established fees and for the establishment of new fees in Fiscal Year 2009.

21          **Section 23. Contracts.** (a) *Except* for positions filled in accordance with the  
22   merit system at the University of Guam, the Guam Community College, the Guam Public  
23   School System, the Judiciary of Guam, the Department of Law, the Guam Police

1 Department, *I Liheslaturan Guåhan*, and licensed health professionals at the Guam  
2 Memorial Hospital, the Department of Public Health and Social Services and the  
3 Department of Mental Health and Substance Abuse, positions in the classified and  
4 unclassified service *shall* not be filled pursuant to a contractual arrangement. The  
5 Judiciary may hire judges and justices pro tem, law clerks and legal interns by contract.  
6 The University of Guam, the Guam Public School System and the Guam Community  
7 College may hire retired faculty by contract.

8 (b) Subject to Title 5 GCA Chapter 5, government of Guam departments and  
9 agencies may contract with independent contractors, provided that *no* agency may  
10 contract for services customarily provided by employees in the classified service *except*  
11 as permitted by law.

12 (c) This Section *does not* prohibit the use of independent contracts to obtain  
13 professional services, such as licensed health professionals, licensed architects, licensed  
14 engineers, legal services, actuarial services and auditing services (to include the  
15 Government of Guam Annual Financial Audit) by those agencies that *do not* customarily  
16 obtain such services through an employee.

17 (d) The Attorney General may contract with attorneys as independent  
18 contractors who can provide assistance in areas in which it is impracticable for the  
19 Department of Law to proceed with its existing civil service attorneys such as anti-trust,  
20 maritime and admiralty law, patent and copyright law, prosecution of white collar crime,  
21 utilities regulation, the issuance of bonds, special tax issues, and complete civil litigation.  
22 The Attorney General *shall* file a copy of every such contract with the Chief Procurement  
23 Officer and the Director of Administration together with a written certification stating

1 why it was impracticable to handle the matter with the Department's civil service  
2 attorneys and justifying the hiring of an independent contractor.

3       **Section 24. Repeal of 5 GCA §7118.** Title 5 G.C.A. §7118 is hereby  
4 repealed.

5       **Section 25. Amendment to 4 GCA §2103.9(a).** 4 GCA §2103.9(a) is hereby  
6 amended to read as follows:

7               “(a) *I Maga’lahen Guåhan* [the Governor] or appointing authority may,  
8 by separate appointment, appoint a person in an acting capacity to fill a salaried position  
9 which requires the advice and consent of *I Liheslaturan Guåhan* [Guam Legislature]. ~~In~~  
10 ~~any twelve month period~~, no person may serve in such an acting capacity for a term in  
11 excess of one year ~~total of more than ninety (90) days plus three (3) legislative days;~~  
12 provided, that no acting director who is not otherwise a classified employee of the  
13 government of Guam may serve in the capacity of acting director without the transmittal  
14 of such person's name to *I Liheslaturan Guåhan* for the purpose of confirmation within  
15 fifteen (15) days of their appointment as acting director.

16       This Section does not apply to appointments to classified positions, but does  
17 apply to classified employees appointed in an acting capacity to a position requiring the  
18 advice and consent of *I Liheslaturan Guåhan*.”

## CHAPTER VII

## ADMINISTRATIVE PROVISIONS

**Section 1. Authorization for Matching Requirements for Federal Grants-**

**In-Aid.** All departments are authorized to expend funds appropriated in this Act for matching requirements of Federal grants.

## Section 2. Carryover of Local and Federal Matching Program Funds

**for Grants.** The Local and Federal Matching Funds for programs whose expiration dates extend *beyond* September 30, 2009 *shall* not lapse and may be expended throughout the period of the grant award.

**Section 3. Reporting Requirements for Non-Profit Organizations.** All

non-profit organizations that receive funds pursuant to this Act *shall* maintain financial records that accurately account for said funds and *shall* provide a budgetary breakdown by object category to the department *or* agency that oversees the appropriation. The non-profit organization *shall* also provide to said department:

(a) A quarterly report describing its activities during the reporting period and the results it achieved *no later than* twenty (20) days after the end of each quarter;

(b) Notification of all procurement of equipment and services of Five Thousand Dollars (\$5,000) *or* more prior to awarding the contract therefor;

(c) Access to the overseeing department *or* agency's duly authorized representative, and Government of Guam auditors, to appropriate records

1 for the purpose of audit and examination of books, documents, papers and  
2 records of funds expended under the appropriation;

3 (d) Submission of a detailed inventory listing of each year's purchases,  
4 as certified by its certifying officer; and

5 (e) A Final Report to the overseeing department *or* agency for  
6 submission to *I Liheslaturan Guåhan* containing a full disclosure of all  
7 expenditures of funds appropriated by this Act *no later than* November 15,  
8 2009. The overseeing department *or* agency *shall* post the same on its  
9 website.

10 (f) Non-compliance with these reporting requirements will subject the  
11 non-profit organization to a three percent (3%) reduction of its  
12 appropriation(s) and the overseeing agency's contract with the  
13 organization *shall* so provide.

14 **Section 4. Appropriations from the Guam Contractors License Board**  
15 **Fund and Professional Engineers, Architects and Land Surveyors Board Fund to**  
16 **revert to the General Fund for Fiscal Year 2009.** At the end of Fiscal Year 2009, any  
17 unexpended *or* unencumbered appropriations to the Guam Contractors License Board  
18 (GCLB) Fund and the Professional Engineers, Architects and Land Surveyors (PEALS)  
19 Board Fund *shall* revert to the General Fund. Any revenues collected in excess of the  
20 appropriations to these funds *shall* revert to the General Fund.

21 **Section 5.** *Unless* otherwise specified in this Act:

1                   **(a) General Fund Reversion.** All unexpended *or* unencumbered  
2                   appropriations made from the General Fund pursuant to this Act *shall* revert to the  
3                   General Fund on the last day of Fiscal Year 2009;

4                   **(b) Tourist Attraction Fund Reversion.** All unexpended *or*  
5                   unencumbered appropriations made from the Tourist Attraction Fund pursuant to  
6                   this Act *shall* revert to the Tourist Attraction Fund on the last day of Fiscal Year  
7                   2009.

8                   **(c) Healthy Futures Fund Reversion.** All unexpended *or*  
9                   unencumbered appropriations made from the Healthy Futures Fund pursuant to  
10                  this Act *shall* revert to the Healthy Futures Fund on the last day of Fiscal Year  
11                  2009.

12               **Section 6. Restriction on the Home Use of Government of Guam**  
13               **Vehicles.** Except when *expressly* permitted by Title 4 GCA §1103(c), *no* government of  
14               Guam owned, leased *or* rented vehicles may be driven home by an employee *unless* such  
15               employee is on call as an emergency first responder.

16               **Section 7. Authorization for Payment of Prior Years' Obligations.**  
17               Appropriations made in this Act may be expended for the payment of prior years'  
18               obligations.

19               **Section 8. Severability.** *If* any provision of this Act or its application to any  
20               person or circumstances is held invalid, the invalidity shall *not* effect other provisions or  
21               applications of this Act which can be given effect without the invalid provision or  
22               application, and to this end the provisions of this Act are severable.
